

Hung Ta™ Mechanical Punch Press Model HT8024: Description

The Hung Ta™ Mechanical Punch Press Model HT8024 is a bench top design, which uses a minimum of space, and is ideally suited for placing next to the test instrument work station or in a central location.

The savings in rubber or plastic test specimen preparation, reduced cutting die wear, mis-identified specimens, coupled with improved productivity, will repay the investment in this punch press many times over!

No special mounting adapters are required, allowing for simultaneously using multiple dies and for “gang style” dies.

Specimen cutting dies of standard or custom designs are available from CCSi. The pricing and specifications are enumerated on the [Test Specimen Cutting Dies](#) pages.
