

Indusco—KaeV® Swing Arm Presses: Description

Indusco—KaeV® Presses are suitable for use on various sheet materials such as synthetic rubber, natural rubber, soft plastics, coated and uncoated textiles, leather, synthetic leather, cardboard, paper, etc., with single or double edged cutting knives in single or multiple layers.

These high quality versatile swing—arm cutters feature a double acting hydraulic cylinder and electronically adjusted cutting stroke.

There are no cumbersome hand wheels to turn to adjust the cutting stroke! The swing arm is easy to maneuver and there is surprisingly little operating noise ... perfect for the laboratory environment!

Specimen cutting dies of standard or custom designs are available from CCSi. The pricing and specifications are enumerated on the [Test Specimen Cutting Dies](#) pages.
